

You & Your Dental Benefit Plan

You Are Our First Priority.

You deserve quality, long lasting dental care and you deserve fair compensation from your dental benefit plan. Treatment plans designed by Dr. Lewis ensure quality, long-term dental health. We believe you and your comprehensive care comes first.

Plans Vary.

In most cases your employer, the purchaser of your dental benefits plan, selects the range of benefits available to you. Some plans cover 30-100% of treatment, while others are limited and cover only specific services. As your partner in dental health care, we encourage you to please read through your benefit plan to familiarize yourself with your benefits regarding preventive, basic and major coverage. We promise to process your claim quickly and help you receive the benefits promised to you within your basic plan contract.

Benefits Misunderstood.

Dental benefit companies will lead you to believe there is a standard fee for dental work called the UCR fee, meaning "Usual, Customary and Reasonable". Research shows UCR fees vary as much as 136% within the individual insurance company. In most cases, the UCR fee is developed according to the cost of the plan purchased by your employer. Your comprehensive care is our priority along with making choices available to you. We have set a standard of comprehensive care, individual to your needs. The care we provide is not usual and customary. Low reimbursement can be the result of poor benefit contracts.

Terms.

Typical terms used by benefit carriers include "Pre-Determination, Pre-Estimate and Pre-Authorization". To ensure you receive maximum benefits from your dental plan, it is important for you to know your plan's definition of these terms. After reading your dental plan/booklet, if there is a term that you do not understand, please come in and let us help you understand your benefits.

Providing Your Dental Benefit Plan With Information Is A Service We Gladly Provide.

Assisting you in receiving benefits from your dental plan is a service we gladly provide. We are responsible for the submission and processing of your claims. It is important for our patients to fully understand their dental benefit plan information and coverage. Your dental benefit plan may not cover the costs of necessary dental treatment and any unpaid balance not under the contract with your plan is your responsibility. Please provide us with your dental insurance information, subscriber card and blank insurance form. **Thank You!**
